Election/Restrictions

- 5/14/09
HN
1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-~~10~~¹¹, drawn to an exposure apparatus, classified in class 355, subclass 30.
 - II. Claims 12-15, drawn to a method of manufacturing a semiconductor device and a plant for manufacturing a semiconductor device having a local area network for interconnecting a group of manufacturing equipments and a gateway for making it possible to access from the local area network with an external network outside the plant, classified in class 430, subclass 311.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, while invention I-II have separate utilities such as correcting image forming characteristic of the projection optical system and manufacturing a semiconductor device by using specific manufacturing equipments for various processes. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2851

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
